DIN S.A.

We are devoted to the infrastructure development in the steel Industry and Mining.

PROJECT: BAGLEY

- **Owner:** Arcor S.A.
- **Location:** Salto, Buenos Aires, Argentina.
- **Surface area:** 20.000 square metres.
- **Weight:** 1.200 tons.

DIN S.A. constructed a new plant to elaborate cookies. This heavy industrial building is the first plant with an automatic and continuous process achieved through German furnaces unique in Argentina.

The construction site covers an area of twenty thousand square metres (a total of fifty thousand square metres of metal sheets for indoor and outdoor windows and doors) and has structures that weigh one thousand and two hundred tons.
